# INFLATABLE BOATS NEPTUNE 

## neptune

## POWERFUL CONSTRUCTION HIGH DURABILITY

NEPTUNE boats are known for their strong construction that guarantees safety. They are made of 1100 denier polyester fabric, which is specially coated with PVC on both sides. This method is proven to be immensely strong, tear resistant and completely waterproof. In addition, NEPTUNE boats provide high levels of resistance to fuel, UV rays and everyday abrasion. They consist of separate tubes for greater safety.

## REINFORCED AND WATERPROOF SEAMS

The durability of the NEPTUNE boats is guaranteed as they are manufactured with four reinforced fabric seams combined with the use of polyurethane glue. The use of polyurethane glue maximizes the resistance and protection of the boats against high temperatures and sea water.

## CERTIFICATION

All boats bear the CE certification mark and are approved according to the Recreational Craft Directive c 2013/53/EU.

## GUARANTEE*

Our trust towards the quality of our products is reflected upon the provided 5 years guarantee for the fabric and the 2 years guarantee for the seams.

* The warranty applies only to private use and when the correct operating and operating instructions are followed.

## SLATTED FLOOR BOATS

NEPTUNE slatted floor boats are inflated and stored within a few minutes. This choice of floor will allow the assembly without removing the flooring of the boat. It is an ideal choice for those that need a compact and portable system as it is small, light and easy to assemble. For those reasons NEPTUNE slatted floor boats are ideal as a secondary boat of larger vessels.

## BOAT SERIES WITH INFLATABLE DEEP "V"

The particular NEPTUNE boat series stands out for its modern design approach. Their inflatable deep " $V$ " reflects a point of reference for boats that promote safety, leisureliness and smooth navigability. They are available in various sizes, for all uses, with a choice of three floorings: aluminum, plywood and airmat.

## ALUMINUM FLOOR

It is the usual choice for divers and fans of high-performance boats, as it can be put together and taken apart quickly for ease of maintenance. It is also exceptionally resistant to impact.

## AIR MAT FLOOR

Our air mat floor is cleverly designed with thousands of polyester threads crisscrossing one another. It is then inflated with high pressure making it as tough and rigid as a conventional wooden floor, but lighter and more comfortable. Its small size allows it to be easily carried and stored in tight places.
